WE CARE FOR A GREENER WORLD

A FSC Certified Printer

We care about the increased concern on the state of environmental and sustainability. Being part of the solution to minimize the impact at the social and environment level is always what we prioritize. Therefore, we are introducing 'FSC certified Printing' as part of our services. 'FSC Certified Printing' simply refers to printing on FSC certified paper that comes from responsibly managed forest. Being FSC certified means that we were assessed and has the compliance processes to ensure the proper traceability for paper products used, and assures the content meets the specification associated with the FSC trademark. Join as our 'FSC Certified Printing' partner now and get your next marketing material printed on FSC certified paper.

What kind of FSC materials do we offer?

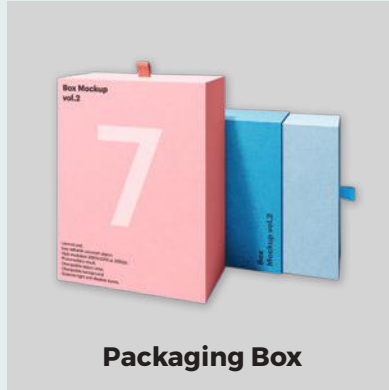

We offer 2 kinds of FSC material, which are FSC Mix and FSC Recycled. FSC Mix refers to paper manufactured with a combination of FSC-certified virgin fiber, recycled materials and other controlled sources. On the other hand, FSC Recycled refers to paper manufactured with 100 percent recycled fiber. Each material carries different on-product label as shown at right side.
